R topics documented:

---

babynamesIL   *Israeli baby names per year.*

Description

Full baby name data provided by the Israel's Central Bureau of Statistics (LAMAS). Only names with at least 5 uses (in a given year) are included. Data is separated by sectors and sex, where sectors are "Jewish", "Muslim", "Christian", "Druze" and "Other".

Usage

```
babynamesIL
```

Format

A data frame with six variables: sector, year, sex, name, n and prop (n divided by total number of babies *in the database*).

Details

Data was downloaded from: here

---

babynamesIL_totals   *Israeli baby names total numbers.*

Description

Total number of babies per name, sector and gender at the years 1948-2022.
