

# Package ‘treesitter.r’

September 6, 2024

**Title** 'R' Grammar for 'Tree-Sitter'

**Version** 1.1.0

**Description** Provides bindings to an 'R' grammar for 'Tree-sitter', to be used alongside the 'treesitter' package. 'Tree-sitter' builds concrete syntax trees for source files of any language, and can efficiently update those syntax trees as the source file is edited.

**License** MIT + file LICENSE

**URL** <https://github.com/r-lib/tree-sitter-r>

**BugReports** <https://github.com/r-lib/tree-sitter-r/issues>

**Depends** R (>= 4.3.0)

**Suggests** testthat (>= 3.0.0), treesitter

**Config/build/bootstrap** TRUE

**Config/Needs/website** tidyverse/tidytemplate

**Config/testthat/edition** 3

**Encoding** UTF-8

**RoxygenNote** 7.3.2

**NeedsCompilation** yes

**Author** Davis Vaughan [aut, cre],  
Posit Software, PBC [cph, fnd],  
Tree-sitter authors [cph] (Tree-sitter C headers and parser.c)

**Maintainer** Davis Vaughan <davis@posit.co>

**Repository** CRAN
