

Let $\pi\colon E \twoheadrightarrow M$ be a foliated bundle. Also $M \leftrightsquigarrow E$, $E \not\rightleftharpoons M$, $M \not\rightleftharpoons E$, and in subscripts $A_{E \twoheadrightarrow M}$.

$$E \xrightarrow{\pi} M, \quad E \xrightarrow[\text{proj}]{\pi} M, \quad M \leftrightsquigarrow E$$

$$E \twoheadrightarrow M, \quad E \not\rightleftharpoons M$$
