

bg back

bg 1C

A diagram showing a central blue vertical bar (spine) passing through a gray rectangular area. The spine is wider at the top and bottom. Two white rectangular labels with black borders are positioned on the spine. The top label contains the text 'bg spine' and the bottom label contains 'bg S'. The entire structure is centered within a larger gray rectangular frame. Red lines are visible at the top, bottom, left, and right edges of the frame.

bg spine

bg S

The diagram shows a large rectangle divided into three vertical sections. The left section is light gray, the right section is blue, and a narrow vertical strip in the center is a darker gray. Two white boxes with black borders are positioned vertically in the center of the dark gray strip. The top box contains the text 'bg front' and the bottom box contains 'bg rC'. The text is in a blue, monospaced font.

bg lC-rC

back

1C

A diagram showing a central vertical blue bar with a white rectangular box containing the word "spine" in blue text. Below this box is another white rectangular box containing the letter "S" in blue text. The entire structure is centered within a larger gray rectangular area.

spine

S

A diagram showing a rectangular structure with a central vertical channel. The structure is divided into three main horizontal sections: a large gray area on the left, a narrow central channel, and a large blue area on the right. The central channel contains two white rectangular blocks with black outlines. The top block is labeled "front" and the bottom block is labeled "rC". The entire structure is enclosed within a gray border.

front

rC

A diagram of a brain section. A large blue area on the left represents the brain tissue. A vertical blue strip runs through the center, representing the spine. A white box with a black border is positioned over the spine, containing the text 'back and spine'. Below this box, another white box with a black border is positioned over the spine, containing the text 'IC-S'. The entire diagram is set against a light gray background.

back and spine

IC-S

A diagram showing a rectangular structure with a central vertical channel. The structure is divided into three horizontal sections. The top and bottom sections are gray, and the middle section is blue. A white box with a black border is centered in the blue section, containing the text "front and spine" in blue. Below this box, another white box with a black border is centered in the blue section, containing the text "S-rC" in blue. The entire structure is surrounded by a gray border.

front and spine

S-rC

A diagram consisting of a large blue rectangle with a black border, centered within a larger gray rectangle. Inside the blue rectangle, two white rectangular boxes are stacked vertically and centered. The top box contains the word "whole" and the bottom box contains the text "1C-rC". Two vertical black lines extend from the top and bottom of the white boxes to the top and bottom edges of the blue rectangle, respectively.

whole

1C-rC

whole page

A diagram showing a large gray rectangle with a blue border on the left side. Inside the gray rectangle, there are two white boxes with black outlines. The top box contains the text "bg back flap" and the bottom box contains "bg lF". Two vertical lines connect the top and bottom boxes, and two more vertical lines are positioned to the left and right of the top box, suggesting a grid or structural layout.

bg back flap

bg lF

The diagram shows a large gray rectangle with a blue vertical bar on its left side. Inside the gray rectangle, there are two white boxes with black outlines. The top box is wider and contains the text "bg back wrap". The bottom box is narrower and contains the text "bg lW". Two vertical black lines connect the top and bottom boxes, one centered under each box. The entire diagram is overlaid on a white background with a grid of red vertical and horizontal lines.

bg back wrap

bg lW

A diagram showing a rectangular structure with a light gray background. A central region is highlighted in blue. Two white boxes with black borders are positioned vertically in the center of the blue region. The top box contains the text 'bg back' and the bottom box contains 'bg 1C'. Vertical black lines divide the structure into several sections. Red vertical lines are present at the top and bottom edges of the diagram.

bg back

bg 1C

A schematic diagram of a beam structure. It features a central vertical blue bar labeled "bg spine" and a smaller white box labeled "bg S" positioned below it. The entire structure is contained within a larger gray rectangular frame. The frame is divided into several vertical sections by thin black lines. The background is white with a grid of red vertical lines.

bg spine

bg S

The diagram shows a large gray rectangle with a blue rectangular area on its right side. Two white boxes with black borders are positioned in the center of the gray area. The top box contains the text 'bg front' and the bottom box contains 'bg rC'. Vertical red lines are present at the top and bottom of the image, and horizontal red lines are at the left and right edges.

bg front

bg rC

The diagram shows a large gray rectangle with a grid of vertical lines. A blue vertical bar is on the right side. Two white boxes with black borders are centered horizontally. The top box contains the text 'bg front wrap' and the bottom box contains 'bg rW'. Vertical lines connect the two boxes. The entire diagram is overlaid on a grid of red lines.

bg front wrap

bg rW

bg front flap

bg rF

The diagram shows a book cover layout. On the left is a blue spine. To its right is a grey back flap. The back flap is divided into several vertical sections. A white box with a black border is centered on the back flap, containing the text "bg back flap and wrap". Below this box, another white box with a black border is centered, containing the text "bg 1F-1W".

bg back flap and wrap

bg 1F-1W

The diagram shows a large gray rectangle with a blue-shaded area on the left side. The blue area is a vertical strip that is wider than it is tall. Two white boxes with black borders are positioned within the blue area. The top box contains the text 'bg back and wrap' and the bottom box contains 'bg 1W-1C'. The gray area is divided into several vertical sections by thin black lines. The overall layout is centered horizontally and vertically within a white background.

bg back and wrap

bg 1W-1C

bg back and spine

bg 1C-S

bg front and spine

bg S-rC

The diagram shows a large gray rectangle containing a grid of smaller gray rectangles. A blue-shaded area covers the right half of the grid. Two white text boxes with black borders are positioned in the center of the grid. The top box contains the text 'bg front and wrap' and the bottom box contains 'bg rC-rW'. The text is in a blue, monospaced font.

bg front and wrap

bg rC-rW

bg front flap and wrap

bg rW-rF

bg back and flap

The diagram shows a large rectangle divided vertically into two halves: a blue left half and a gray right half. The blue half contains a vertical column of three rectangular sections. The gray half contains a vertical column of three rectangular sections. Two white text boxes with black borders are positioned in the center, overlapping the boundary between the two halves. The top box contains the text 'bg back and flap' and the bottom box contains 'bg 1F-1C'. A vertical line connects the two boxes.

bg 1F-1C

A diagram illustrating a book binding layout. It features a central blue spine area and two gray side panels. Two white text boxes with black borders are positioned on the spine. The top box contains the text "bg back and spine and wrap" and the bottom box contains "bg lW-S".

bg back and spine and wrap

bg lW-S

bg back and spine and front

bg lC-rC

A diagram showing a rectangular layout with a central blue spine and gray wrap. The spine is a vertical bar in the center, and the wrap is a gray bar on the left and right sides. The spine is divided into two sections by a thin vertical line. The wrap is also divided into two sections by a thin vertical line. The text 'bg front and spine and wrap' is written in blue in a white box across the top of the spine and wrap. The text 'bg S-rW' is written in blue in a white box below the spine.

bg front and spine and wrap

bg S-rW

bg front and flap

bg rC-rF

The diagram shows a book's spine and cover. The spine is on the left, colored blue, and the cover is on the right, colored gray. A white box with a black border is positioned across the spine and cover, containing the text "bg back and flap and spine". Below this box, centered on the spine, is another white box with a black border containing the text "bg lF-S".

bg back and flap and spine

bg lF-S

bg back and spine and front and back wrap

bg lW-rC

bg back and spine and front and front wrap

bg lC-rW

bg front and flap and spine

The diagram shows a horizontal rectangular object representing a book. The left half is shaded gray, and the right half is shaded blue. A white box with a black border is positioned across the middle of the book, containing the text 'bg front and flap and spine'. Below this box, centered on the boundary between the gray and blue sections, is another white box with a black border containing the text 'S-rF'. The entire diagram is overlaid on a grid of red vertical and horizontal lines.

bg whole without back flap

bg lW-rF

bg whole

bg lF-rF

A diagram showing a horizontal rectangular structure with a light gray background. On the left side, there is a vertical blue bar. In the center, there is a vertical stack of two white boxes with black outlines. The top box is wider and contains the text "back flap". The bottom box is narrower and contains the text "1F".

back flap

1F

A diagram showing a horizontal gray bar with a blue vertical strip on the left side. A white box with a black border is centered on the bar, containing the text "back wrap" in blue. Below this box is another smaller white box with a black border containing the text "1W" in blue. The entire diagram is set against a background of a light gray bar with a darker gray border, and red vertical lines are visible in the background.

back wrap

1W

back

1C

A diagram showing a horizontal gray bar with a central blue vertical bar. The blue bar has a white rectangular box in the middle containing the word "spine" in blue text. Below the "spine" box, the blue bar continues down to another white rectangular box containing the letter "S" in blue text. The gray bar is divided into several vertical sections by thin black lines.

spine

S

A diagram of a rectangular structure. The structure is divided into several vertical sections. The leftmost section is a wide gray rectangle. To its right is a narrow gray vertical strip. The next section is a wide gray rectangle. To its right is a narrow gray vertical strip. The next section is a large blue rectangle. To its right is a narrow gray vertical strip. The rightmost section is a wide gray rectangle. The entire structure is enclosed in a light gray border. Two labels are positioned vertically in the center of the structure: 'front' is in a white box with a black border, and 'rC' is in a white box with a black border, positioned below 'front'. The text is blue.

front

rC

A diagram showing a cross-section of a front wrap assembly. The assembly is contained within a grey frame. It consists of several vertical sections: a wide grey section on the left, a narrow grey section, a wide grey section, a narrow grey section, a wide grey section, a thin blue vertical strip, and a wide grey section on the far right. A white rectangular label with the text "front wrap" is positioned in the center of the wide grey section. Below this label, a smaller white rectangular label with the text "rW" is centered within the narrow grey section. The entire diagram is overlaid on a grid of red vertical and horizontal lines.

front wrap

rW

A diagram of a rectangular structure, possibly a book cover or folder, shown in a light gray color. The structure is divided into several vertical sections by thin black lines. On the right side, there is a vertical rectangular section filled with a solid blue color. In the center of the structure, there is a white rectangular box with a black border containing the text "front flap". Below this box, centered horizontally, is another smaller white rectangular box with a black border containing the text "rF". The entire structure is set against a white background with a grid of red vertical lines.

front flap

rF

back flap and wrap

The diagram shows a horizontal rectangular layout representing a book cover. On the left side, there is a vertical blue bar representing the spine, which is divided into two sections by a thin black line. The rest of the cover is a light gray area. In the center of this gray area, there is a white rectangular box with a black border containing the text "back flap and wrap". Below this box, there is another smaller white rectangular box with a black border containing the text "1F-1W". Two vertical black lines extend from the top and bottom of the "1F-1W" box to the top and bottom of the "back flap and wrap" box, indicating a vertical alignment or relationship between the two text elements.

1F-1W

A diagram of a 1D lattice represented as a horizontal bar with a light gray background. The bar is divided into several vertical segments by thin black lines. A central region is highlighted in blue. Within this blue region, there are two white rectangular boxes with black borders. The top box contains the text "back and wrap" in blue, and the bottom box contains the text "1W-1C" in blue. The text "1W-1C" is positioned directly below "back and wrap".

back and wrap

1W-1C

back and spine

1C-S

The diagram shows a large gray rectangular frame containing a central blue rectangular region. A vertical gray bar is positioned to the left of the blue region. Two white rectangular labels with black borders are centered horizontally. The top label contains the text 'front and spine' and the bottom label contains 'S-rC'. The labels are positioned such that they appear to be attached to or positioned over the blue region.

front and spine

S-rC

A diagram showing a horizontal rectangular area divided into several sections. A large section on the right is shaded blue. Two labels are positioned in the center: 'front and wrap' is in a white box above 'rC-rW', which is in a white box below it. The entire diagram is set against a light gray background with a grid of red lines.

front and wrap

rC-rW

A diagram showing a document layout. A large gray rectangle contains a white box with the text "front flap and wrap" in blue. Below this box is a smaller white box with the text "rW-rF" in blue. To the right of the main content area is a vertical blue bar. The entire diagram is overlaid on a grid of red lines.

rW-rF

back and flap

1F-1C

back and spine and wrap

IW-S

back and spine and front

1C-rC

A diagram of a book binding structure. It features a central blue area representing the spine and a surrounding gray area representing the front and back covers. The spine is divided into sections by vertical lines. A white box with a black border is positioned horizontally across the spine, containing the text "front and spine and wrap". Below this box, another white box with a black border is positioned vertically, containing the text "S-rW".

front and spine and wrap

S-rW

front and flap

rC-rF

A diagram of a book's internal structure. The book is represented as a horizontal rectangle with a light gray outer cover and a blue inner section. The blue section is divided into several vertical panels. A white box with a black border is positioned in the center of the blue section, containing the text "back and flap and spine". Below this box, another white box with a black border contains the text "1F-S". The diagram is overlaid on a grid of red vertical and horizontal lines.

back and flap and spine

1F-S

back and spine and front and back wrap

lW-rC

back and spine and front and front wrap

1C-rW

A diagram of a book's internal structure, represented as a horizontal rectangle. The rectangle is divided into several vertical sections. The leftmost section is gray. The next section is a narrow gray strip. The following section is a wide gray area. The next section is a narrow blue strip. The following section is a wide blue area. The next section is a narrow blue strip. The final section is a wide blue area. A white rectangular box with a black border is centered horizontally across the wide gray and wide blue sections, containing the text "front and flap and spine". Below this box, centered horizontally, is another white rectangular box with a black border containing the text "S-rF".
